

# CABINET DISPLAY

## TCI-P1.53-320-160

In the rapidly evolving world of visual displays, the TCI-P1.53-320-160 LED cabinet stands out as a beacon of advanced technology and superior performance.

Designed with the latest innovations, this LED cabinet is perfect for high-resolution displays, offering unmatched clarity and vibrancy.

- **Ultra-Fine Pixel Pitch (1.53mm)** The TCI-P1.53-320-160 boasts an incredibly fine pixel pitch of just 1.53mm. The tight pixel pitch ensures that even at close viewing distances, the image quality remains sharp and clear, with no visible pixilation.
- **SMD1212 LED Technology** At the heart of the TCI-P1.53-320-160 is the SMD1212 LED, known for its compact size and high brightness. The SMD1212 LEDs are smaller and more efficient than traditional LEDs, allowing for higher pixel density and better color consistency. This results in a display that is not only brighter but also more energy-efficient, delivering stunning visuals with reduced power consumption.
- **High-Resolution Performance** With a pixel configuration of 320x160, the TCI-P1.53-320-160 offers a high-resolution output that is perfect for displaying detailed content, whether it's complex data sets, high-definition videos, or intricate graphics. The high resolution also makes this cabinet suitable for creating large, seamless video walls that captivate audiences.
- **Easy Integration and Maintenance** The TCI-P1.53-320-160 is designed for ease of use, with a modular structure that allows for quick installation and maintenance. This modularity not only simplifies the assembly process but also makes it easier to replace individual components, reducing downtime and ensuring the display remains operational with minimal disruption.

|-----------------------------------|-------------------|
| <b>Model</b>                      | TCI-P1.53-320-160 |
| <b>Pixel Pitch (mm)</b>           | 1.53mm            |
| <b>Led Configuration</b>          | SMD1212           |
| <b>Module Size</b>                | 320 x 160         |
| <b>Module Quantity</b>            | 1 Module (1x1)    |
| <b>Card Quantity</b>              | 1 Card            |
| <b>Cabinet Resolution (Pixel)</b> | 208 x 104         |
| <b>Cabinet Dimension (mm)</b>     | 320 x 160 x 60    |
| <b>Cabinet Weight</b>             | 1,8Kg             |
| <b>Cabinet Material</b>           | Aluminum Alloy    |
| <b>Brightness</b>                 | 1200 Nits         |
| <b>Viewing Angle</b>              | 150/150           |
| <b>Bit Depth</b>                  | 14 - 16bits       |
| <b>Color Temperature</b>          | 2.800K ~ 10.000K  |
| <b>Video Frequency</b>            | 50/60Hz           |
| <b>Refresh Rate</b>               | 3840 Hz           |
| <b>Power Source</b>               | 220VAC – 50/60Hz  |
| <b>Max Power</b>                  | 35W               |
| <b>Operating Humidity Level</b>   | 10% ~ 80%         |
| <b>Operating Temperature</b>      | -20°C ~ 40°C      |
| <b>IP Protection</b>              | IP31              |
| <b>Maintenance Support</b>        | Front – Back      |
